# Partner With Us

As we are a non-profit organization, we need partners to help us fulfill our mission. Partners are essential in helping us to expand organizations programs through building new ones or combining the existing programs and making them stronger. Additionally, we can reach out to more people, conduct training, offer workshops, and secure a facility with capacity for larger groups. Another major benefit from collaboration is also enhancing the awareness of the organization's goals. *Large scale progress would not happen straight away. It requires the combination of more and more collaborators among different organizations, pooling resources and battling together.*
